

Physiotherapy: What can be treated?

Most musculoskeletal injuries can be treated by your physiotherapist including:

- BIOMECHANICAL PROBLEMS
- POST FRACTURE & SURGICAL REHABILITATION
- POSTURAL ANALYSIS
- REFERRED PAIN

PHYSIOWORKS[®]
Health Group

Appointments

- We have a team of highly qualified male and female health care consultants dedicated to delivery of superior healthcare services.
- Appointments are essential for consultations. All consultations are on an individual basis with the treating therapist.
- We appreciate 24 hour prior cancellation to avoid inconvenience to other clients and practitioners.

Professional Fees

- In order to maintain our fees at a competitive level payment is required on the day of consultation.
- Patients under Workcare, TAC and Veteran Affairs will be billed directly to the responsible body if all requirements are met.
- We accept EFTPOS, Visa, MasterCard, cash and cheques.
- Medicare can fund physiotherapy and exercise physiology in certain circumstances.

Health Insurance

- A rebate for our services may be claimed through your private health insurance fund's extras cover. Please check with your particular health scheme.
- Direct claiming is available at our clinics. Please enquire at reception about Instant Health Insurance rebates.

PHYSIOWORKS[®]
Health Group

*'Everyone is an athlete...
we just have different events'*

About Our Practice

Directed by Andrew Dalwood and David Francis, PHYSIOWORKS Health Group provides outstanding General, Sports and Specialist Musculoskeletal Physiotherapy.

As a leading physiotherapy and allied health provider, PHYSIOWORKS Health Group offers service excellence delivered by committed, highly qualified, experienced, professional health care practitioners.

At PHYSIOWORKS Health Group we believe that regardless of age, lifestyle or physical abilities that **“Everyone is an athlete... we just have different events”**.

Our team are dedicated to delivering superior service and health care, working with you to tailor an individual program to restore and rehabilitate you back to normal movement and lifestyle – ready for the “different events” in your life.

Through quality assessment and treatment, based on scientific research and current best practice, our client’s needs are addressed with care and respect.

From initial diagnosis through to tailored management strategies and ongoing exercise regimes, we endeavour to provide prompt recovery and to lessen the chances of recurrence of your injury.

Specialist Physiotherapy

PHYSIOWORKS Health Group Directors, Andrew Dalwood (F.A.C.P) and David Francis (F.A.C.P) are **Specialist Musculoskeletal Physiotherapists**.

Andrew and David are acknowledged leaders in their field, with the highest level qualification in their profession, being two of only a select few Specialist Musculoskeletal Physiotherapists practicing in Victoria.

Andrew and David offer the highest level of expertise in assessing, treating and managing complex, difficult musculoskeletal problems. This expertise extends to providing patients, medical practitioners, other health professionals, insurers and legal practitioners with advanced diagnosis, management plans, expert opinions and evaluation of complex cases.
